

To Whom It May Concern,

Avid software developer grounded in Core Java, Spring Framework, Oracle, MySQL, Spring Boot, Business and Team collaborator, Rest API and a myriad of technologies.

Ready to collaborate within a team setting and as an individual contributor with an eye for software integrations, API and product refinement that impacts customer satisfaction and revenue streams.

Looking forward to exploring your needs and how I may help you solve business pain point issues using technology, experience and focus.

Sincerely,

David King
